THE PRESIDENT'S GREAT TRIUMPHS

UNPRECEDENTED IN THE HIS-COUNTRY.

A Great Contest Over Railroad Rates Ahead-The Recent Triumphal Trip -Tributes to the Man Roosevelt, as SOME OTHER RECENT TRIUMPHS Well as to the President-The Chicago Banquet-The President - The Southern Republican Patronage Machines-A New View of the Third Term Talk.

Special to the Caucasian:

Washington, D. C., May 12, 1905. Last night, a little after midnight. President Roosevelt returned from his six weeks trip. It has been a trip unique, remarkable and unprecedented in the history of this country. The return trip was a series of continuous evations, even greater than the outward trip to Texas. The reception of the President at the Rough Riders reunion in Texas was most hearty and enthusiastic. Democrats vied with the bonor, and in showing their admiration for Roosevelt, the man.

SIGNIFICANT BANQUET IN CHI-CAGO.

The banquet tendered the President by the Iriquois Club, the great Democratic club of Chicago, was most significant and remarkable. These Democrats, while belonging to a different political party, are forced, in fact, to agree with and endorse many of the President's most important public acts, which have appealed to the true American spirit, regardless of party, from ocean to ocean. Besides, they have been moved to a great personal admiration for the President's courage, integrity and sincerity, as shown by his few Democrats in Congress have shown every public and private act. The fact is, the whole people of the United States today lift their hats to him as the strongest individual personality today for good in the whole world.

THE PRESIDENT LOOKS MUCH RE-INVIGORATED.

The President is looking unu healthy and vigorous and browned by son, his outdoor exercise and sport. He says THE PRESIDENT'S WONDERFUL that he has had the most enjoyable trip of his life. Summing up his trip today he said "I left Washington a on his trip are also better Americans. I ever saw him, but he's my man he eafter." This, or some similar expression, was heard frequently in every than it was last November. crowd that essembled to greet the THE VICTORY OVER THE BEEF President from the time he started until he returned last night from his long

Some of the American railroad men here took issue with the President's speech, and it is evident that they are already organiz-TORY OF THIS OR ANY OTHER ing to send a strong lobby down to the eople's Congress next winter to fight the President's effort to regulate railroad rates. It will be a battle royal, and we will see which Congress-the Railroad Congress or the people's Congress-is in the supremacy in Governmental affairs.

OF THE PRESIDENT.

Theodore Roosevelt won a most no table victory during the recent session of Congress. He persuaded the House to pass a bill to regulate railroad rates and stop the discriminations in favor of trust interests by giving rebatcs. High rates are an oppression to all inlustries and rebate discrimination is cumulative evil, in that it bestows avors on one business enterprise and unishes another business enterprise with a higher rate. This is what produces "trusts." Even an excessive high rate will not produce trusts if each industry and each individual pay the same rate.

The House caucus approved the President's rate and rebate bill, and is was promptly passed by the House This is the most effective and intelli gent action taken to crush and break up the oppressive frusts. It is to be hoped that the Senate will also pass Republicans in doing the Fresident this, or a similar-measure, at the next session. But, as stated above, it is clear that the great railroad systems. instead of agreeing to stop such abuses and join with the Government in attempting to enact a law fair to both the roads and the people, are determined to fight. We think they are wrong. We think it is their duty as American institutions to join with the President in attempting to establish justice and equity between the public and the great common carriers of the

MR. BRYAN SHOWS WISDOM AND PATRIOTISM.

great Congress,-a congress of the Ships and Materials For the Canal Are to Be Bought

NO JOBBERY WILL BE TOLERATED

A Howl is Expected to Follow, But Secretary Taft and the Executive Committee Decide That the Money Consideration is Too Great to Be

Washington, Special-The executive committee of the Isthmian Canal Commission has decided to purchase in the markets of the world the material and supplies necessary for the building the Panama canal.

This important decision was reached with some reluctance, because it was appreciated by Secretary Taft and the executive committee that there would surely be a great outcry from two great interests in this country, the producers of material and the ship owners if the purchases were not limited to the American products. But it was decided that the money consideration was so great that it could not be ignored, for it was held that in some cases fully fifty per cent. more would be charged for material needed in canal construction than the same goods could be purchased for in Europe. Chief Engineer Wallace, for instance, showed that two ships, in addition to those running between New York and Colon, and owned by the Panama Railroad Company, were absolutely necessary to carry the food supplies and material needed for the work. No American ships could be bought at any reasonable price, and when it came to buying ships, Secretary Taft said that while he could buy two of 6,000 tons ships in Europe for \$750,000, it would cost \$1,400,000 to build ships here.

As to material needed for canal construction, the committee decided that by reserving to itself the right to purchase in the world's markets, it would at least oblige American manufacturers to bid against their foreign competitors if they wish to sell goods to the commission.

NORTH CAROLINA CROPS

Conditions as Given Out by Depart ment of Agriculture.

The week ending Monday, May 15. was characterized by very warm, sultry weather, frequent and in places excessive rains, and some very severe local thunderstorms with destructive DUTLAW CHIEF FLEES GEN. WOOD winds. The mean temperature for the State averaged nearly 76 degrees, or Fierce Fighting on the Island of Jolo 8 degrees daily above normal, with the highest temperature exceeding 90 on two or three days. Between the showers there was abundant sunhine and warmth and moisture favored rapid growth of vegetation. Showers were frequent; in the central southern por tion of the State there was generally altogether too much rain, soaking the soil, keeping the water courses full, and entirely preventing the most necessary work of the farmer at this time, the cultivation of rapidly growing crops. The most severe local storms occurred on the evenings of the 10th and 12th over Wayne county, Harnett, Johnston, Wake, Alamance and Guilford, and in the west in Rutherford, Davie, Alexander, Surry and Iredell. In these much damage was done to land and crops by washing rains, and high winds blew down many forest and fruit trees, fences and barns. Damaging hail occurred in Wayne county. Over most of the extreme eastern and northern counties the rainfall was moderate and all conditions very favorable.

In many counties farm work was entirely prevented this week, the cultivation of crops, which have become very foul, has been seriously delayed, and also the late planting of corn and cotton. Dry weather is needed. Crops are flourishing, however, growth having been very rapid, though many fields are in danger of being smothered by the more vigorous development of grass and weeds.

Much cotton has still to be planted; the germination of seeds has been very rapid; chopping is under way generally and good stands are assured, but many fields are very grassy, and need work, but the soil is too wet; as yet very little corn has been planted on bottom lands, cut and bud worms are damaging corn on low lands. Exbacco was made this week, but in many important counties the land was unready is too wet to be prepared now. while the plants have grown so rapidly as to be in danger of being ruined before they can be set out. Planting peanuts is advancing favorably. Wheat, oats, rye, and spring oats are all heading, and are generally fine, though some damage to wheat is reported by hessian fly: rust has appeared in wheat, caused by warm, damp ceptionally fine. Irish potatoes are exceptionally fine, but the potato beetle has appeared and is damaging the crop in some sections. Sweet potato slips are being transplanted. Truck crops are doing well; shipments of strawberries are now diminishing in quantity. There will probably be a fair crop of apples, but blight is beginning to cause some injury to fruit.

Tar Heel Topics. It is announced that Prof. W. C. Riddick, professor of engineering at the Agricutural and Mechanical college, and seven members of the senior class of the college have been engaged by a Charleston syndicate to survey 300,000 acres of timber and agricultural lands in Jones and Onslow counties, to which they have acquired title under grants issued by the State more than one hundred years ago. There will be three surveying parties, made up entirely of the faculty and students of the Agricultural and Mechanical college. The work will take about three months. They will live in tents, moving their camp from day to day. Professor Riddick and seven seniors have left to wgin their work, ane eight others from the junior class will join the party immediately after commencement. this way they will earn enough to pay their expenses in the college next

American Troops Get Busy Again In Our Fastern Possessions

Results in the Rout of Pala, a Noted Slave Trader and Warrior, the American Losses Being Seven Killed and

Manila, By Cable-Fierce fighting has been going on the last two weeks on the island of Jole between the outaw Moro chief Pala, with 600 wellarmed followers, and troops under the personal command of Major General Leanord Wood. Pala's losses thus far tre 300 killed, while those of General Wood are seven killed and nineteen wounded. Pala and his remaining folowers, in accordance with Moro tralition, prefer death to capture.

General Wood, with detachments 'rom the Fourteenth Cavalry, the Seventeenth, the Twenty-second and the Twenty-third Infantry and Constabuary Scouts, has driven Pala and his ollowers into a swamp, which has been surrounded.

Pala was a noted slave trader and varrior when the Americans occupied the islands. Later, he escaped with nis followers to the Island of Pula Sekar, near Borneo. One of Pala's leaders deserted and took refuge in the British settlement at Lahad, Pala, liscovering his whereabouts, landed and demanded of the British magisrate that he turn the deserter over o him. The demand was not complied with and Pala ordered a massare. Twenty-five persons, including several Britons, were killed. Pala escaped to the island of Jolo and organized the present uprising.

It is reported that the Borneo au thorities requested General Wood to apprehend Pala, dead or alive, and turn him over to them.

Representative Stewart of Harnett, a Democrat, said that the Legmany employees as were needed and that no one denied it. If this were who wore red shirts, carried shot guns and stuffed ballot boxes.

Nearly every Democratic paper in the State has been lamenting the blunder of the Legislature in mak ing a game law for one county app. to the whole State. Even min they are lamenting the great bun der of the Legislature in repealin, the law providing for local count government, including the election of county commissioners in every county in the State except Warren. These papers all admit that unless the Supreme Court can declare the repealing act unconstitutional, or find a way to enact a new law in a decision of the court, that then the now being established by the high-Governor will have to call this General Assembly of Incompetents back helped the credit of North Carolina. in extra session. What a calamity! No one can tell what they will do if they meet again.

Raleigh Post, commenting upon they will be willing to pay more some of these grievous blunders, and for any and all state bonds. the danger of calling the Legislature back into extra session, says:

Save Your Daughter

Wine of Cardei has been a blessing to my home. I have often found that it was a great relief when I was weary or in pain, but I am especially grateful for what it did for our daughter and only child. I noticed that her measure were tardy and she suffered with headaches and giddiness, heaviness in the abdonsen and about the loins. This seriously interfered with her studies and she had to discontinus several of them.

menstrual function had not been properly started and the unnatural condition was making the young girl an invalid. The headaches and giddiness, indicated something more than a mere temporary ailment. They were symptoms of a functional weakness which would become more and more aggravated as years went by. But Mrs. Thompson was ready to take advice for her daughter's welfare and she gave the little sufferer Wine of Cardui and now she is a well young woman.

If your daughter is sickly and frequently ailing the letter of this good aother contains the best advice you can follow.

Wine of Cardui is the menstrual regulator that cures nine cases out of every ten. Young girls, mothers and aged women find this tonic indispensable. All druggists sell \$1.60 bottles Wine of Cardui.

Wakeful?

Sign of Nerve Trouble and Should Be Looked To.

There are three different manifesta-

tions of sleeplessness. First, hardly to sleer a wink all night. second, to lie awake s long time before falling asleep; third, to fall asleep soon, waking up after several hours and then find it hard to sleep again.

They mean that somewhere in the nerve fibres, somewhere in the brain cells, somewhere in the blood vessels that carry blood to the brain, something is radically wrong, and must be righted, or the end may be worse than death. To right it, take Dr. Miles' Nervine.

Some other symptoms of nerve trouble are: Dizziness, Headache, Backache, Worry, Fretfulness, Irritability, Melancholy, Lack of Ambition. They indicate diseases which may lead to Epilepsy, Fits, St. Vitus' Dance,

Nervous Prostration, Paralysis, Insanity. Nothing will give such guick and lasting relief as Dr. Miles' Nervine. "My husband had been sick for weeks, "My husband had been sick for weeks, could not sit up to have his bed made. With all the medical help we could get he continued to grow worse. He could neither sleep or eat. Our baby girl was sent away, and all callers bassed, because he could not stand a bit of talking. I read of a case of nervous prostration cured by Dr. Miles' Restorative Nervine. We began giving it to him, and in a few days he was able to be dressed. From that time he steadly improved. Nervine saved his life."—MRS. A. G. HASKIN, Freeville, N. Y.

QUAINT OLD CHURCH CEREMONY

"Blessing the Beasts" an Annual Event in Normandy.

One of the quaintest ceremonies which may still be seen in some parts of Normandy is the "benediction des bestiaux." The oxen, asses and a few thoroughbred horses which are raised in that part of France are assembled in front of the little church. There may also be a bullock or two and some cows. The procession of peasauts in their quaint costumes issues from the church to the music of a chant which is droned by the priest and people. The vererable cure sprinkles a few drops on the heads of each of the beasts, who receive it as it is given, with a becoming air of conviction. When all the animals have received the benediction bundles tled up in coarse linen are placed at the pedestal of the cross facing the church. These packets contain bread and salt, which are to be given to the animals not able to attend the ceremony. There may be a couple of hundred peasants taking part in this ceremony and not a trace of levity or anything but devout composure to be seen on their faces. When sion passes through the village chant-

ties and districts of all the Southern States, do not want the party to grow Indeed, they want the party to grow smaller, so that a close corporation of a few individuals can be formed and maintained to exist for no other reason than to divide out the Federal patronage among themselves. There men want a short division of patronage. Therefore the party is already too big to suit them, where there are more Re publicans than there are offices to go round. Such Republicans do not want any one to join the party, and besides, they actually try to drive men out of it to make it small enough for every committeeman to be a Federal officeholder. They are always frightened if there is any danger of Republican success in the State or district, and they are always frightened at the suggestion of the establishment of a Republican daily newspaper. They are simply afraid that the party might grow and get too big and respectable for them to be of ny importance in it.

The President has made a good bedoning in stamping out the evil in Virginia, where he notified State Chairman Agnew that he must either resign s State Chairman, or resign as Internal Revenue Collector, Mr. Agnew has esigned as State Chairman, and a young man. Congressman Slemp's son NEW BLOOD RECOGNIZED IN THE

SOUTH. The President has also begun to recognize new blood in the South. He has Iready annihited General Rosser, and the son of General Zeb Stuart (Confedrate Generals) to Federal offices.

The President's recent speech on the ace question, and his friendliness shown to the South in many respects. has greatly strengthened him in the South, and makes it possible for the Republican party to grow by gaining substantial recruits as never be ore. The President is not only growing in opularity generally in the South, but e has started right to put new life in he Republican party. Under proper eadership the Pepublican party now as an opportunity to grow and soon become the dominant party in many of the Southern States.

ROOSEVELT AGAINST A THIRD TERM

At the banquet of the Iriquois Demcratic Club in Chicago, given to the President, there was most significant occurrence. The toastmaster, ex-Conressman James Hamilton Lewis, in is speech introducing the President. eferred to his great popularity, and aid that the people would probably lemand that he serve another term as president. This was received with oud applause. Of course, the Presdent put this suggestion behind him promptly in terms he has expressed rom the first, which was strongly against any thought or possibility of a hird term. But there is one phase of his matter concerning which we can-not resist comment. We feel satisied that no candidate for a third term vill ever be able to surround himself with enough lieutenants and to form en organization sufficiently strong (no natter how many politicians, corporiticns, trusts or other powerful inare in the dealt to plan ; campaign to nominate and elect him- chartered with \$15,000 capital, to do a self to the Presidency for a third general lumber and sash, door and erm. It is reported from the office of the State Superintendent of Public Instruction that a local tax for the improvement of public schools has been carried in Jacksonville, Onslow county,

by 50 majority. It is an interesting fact that the successful bidders for the \$250,000 bonds sold by the State ; 'erday to satisfy the South Dakota bond judgment, the Shaffer Bros. holdings and other claims of the same class, were also the purchasers of the \$300,000 bonds issued by the State in 1903. They are Townsend, Scott & Co., of Baltimore, and C. A. Webb & Co., of Asheville.

Killed Two and Himself.

Memphis, Tenn., Special .-- A triple tragedy ocurred here tonight, when Thomas McCall, a night watchman for killed Edith Ferguson and Hal Williamson. The murderer, an hour later, turned the weapon upon himself firing a bullet into his head. The shooting occurred on Calhoune street, in the southern part of the city Edith Ferguson, it is claimed, was well known in New York City. She came here in February last. Jealousy is given as the cause of the tragedy.

Schiller's Father's Wish.

Apropos of the Friedrich Schiller centenary it is interesting to recall that when the news of the birth of the poet reached his father, the latter besought God to bestow upon the boy "those gifts of mind and soul to which he himself, through lack of education, had never attained."

Fixing Railroad Rates. Making railroad rates is like playing

a game of checkers or chess. Communities to be benefited, producers, manufacturers or shippers to be aided represent the pieces used. Every possible move is studied for its effect on the general result by skilled traffic managers. A false move in the making of freight rates may mean the ruin of a city, of a great manufacturing interest, of an agricultural community. Railroads strive to build up all these so that each may have an equal chance in the sharp competition of business. So sensitive to this rivalry are the railroads that in order to build up business along their lines they frequently allow the shipper to practically dictate rates. Rate making has been a matter of development: of mutual concessions for mutual benefit. That is why the railroads of the United States have voluntarily made freight rates so much lower in this country than they are on the government-owned and operated railways of Europe and Australia that they are now the lowest transportation rates in the world.
